Conference 6-Party
You can set up a conference call for up to six (6) people, including yourself.
To set up a conference call:
1. While on a call, press Conference. The person you are talking to is placed on Hold.
2. Dial the next number of the person you want to add to the conference. When the call is answered, you can talk privately with the person before they join the conference. (If they do not answer, press the DN key to get back to your active call).
3. Press Conference again to join all callers.
If necessary, repeat the procedure to include up to six (6) people.
